About This Game

OVERVIEW:

Deus Ex: The Fall is set in 2027– a golden era for science, technology and human augmentation, but also a time of great social divide and global conspiracy. Powerful corporations have seized control from governments and command the drug supply needed by augmented humans to survive.
In this chaos Ben Saxon, a former British SAS Mercenary who underwent physical augmentation, is desperate for the truth behind the drug conspiracy. Betrayed by his private military employers, the Tyrants, not only is his own life at risk but for all augmented humans, time is running out…
Developed in collaboration with the original DEUS EX: HUMAN REVOLUTION® team at Eidos-Montréal and N-Fusion; Deus Ex: The Fall includes full Steam Achievements, Mouse & Keyboard control configurations, and Control Pad support.

FEATURES:

This is a port of the original DEUS EX: THE FALL experience, first released on iOS and Android in 2013 – action, stealth, hacking, and social gameplay. A prequel story to Deus Ex: Human Revolution that builds on the DEUS EX universe. Fight for survival in a global conspiracy.

STORY DRIVEN ACTION-RPG:

- The search for the truth spans from mafia hideouts in Moscow to the slums of Panama

- Every action has a consequence

- Hours of gameplay with multiple ways to play

THE DEUS EX EXPERIENCE:

- Play the way you want- high-impact action or stealth

- Original, immersive storyline

- Numerous side quests

- Fully explorable environments

- Social and hacking skills

- High impact action and combat

- Unique visual design

PC STEAMWORKS OPTIMIZATIONS:

- Full Mouse & Keyboard control scheme (please note keyboard bindings are not configurable)

- Microsoft Controller support

- 28 Steam achievements

- Steam Trading Cards and Badges

- Adjusted Artificial Intelligence

- Revised game tutorial

- Removal of auto-target options

- Revised aiming reticule

- Removal of in-game purchase options, with rebalanced game economy

- Revised cover options - now matches Deus Ex: Human Revolution (HOLD or Toggle)

- Resolution, Anti-Aliaising and Vertical Sync options

BACK

I remember buying this with a bundle a long time ago. It was worth it for the original Deus Ex and Human Revolution.

The big pro about this game is that it's short. Even if you're taking your sweet time, It could take you about 4 hours to beat. The experience itself however, is absolutely terrible.

Being a mobile game, it has terrible graphics, bad controls and a really bad interface. Maybe on a tiny phone screen it looks okay but that doesn't change the really bad story as well. I honestly can't tell you much about what happened in the story.

I only played it as it was an easy 100% completion. That being said, the achievements bugged and gave me the pacifist achievement despite killing a lot of people. So one less playthrough for me. Yay!. This is a mobile port. It plays fine, the graphics look dated but it's entirely functional.

The problem is this is about 1\/3 of a game. There's one city. You play a few missions, leave the city, and the game says "to be continued." (they actually don't continue.) Very bad.
